

A scatter plot showing the relationship between Course Rating (X-axis) and an unlabeled Y-axis variable. The X-axis ranges from 64 to 72, and the Y-axis ranges from 8 to 14. Data points are color-coded: red (top left), yellow (middle left), green (top center), pink (middle center), blue (right), and orange (bottom). Three regression lines are shown: a dark blue line with a negative slope, a yellow line with a slight positive slope, and a light blue line with a positive slope. Data points are labeled with their Y-axis values.
